nothing

common sense

We will never get a high quality workforce with the salary that is offered here. It all sounds good but follow through.

Core values should be something to believe in not your liberal arts LGBTQ agenda a small, small portion of America believes in. Get back to teaching the basics of R, R, A. Use the bible as a guide not some crazy East & West Coast ideas you want to jam down our midwest values throats.

mission statement helps students and higher ups above supervisors. You don't care about custodians. Dismantle core.

That all of staff operations matter!

none

No things missing from UND's proposed new mission statement

Really can't think of nothing.
